-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-13, drawn to a device for iontophoretic delivery of a drug at less than a maximal current density.

Group II, claim(s) 14-17, drawn to a method for iontophoretically administering drug at less than a maximal current density.

Group III, claim(s) 18-24, drawn to a sponge of porous structure.

2. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

3. The special technical feature of Group I, a device for iontophoretic delivery of a drug at less than a maximal current density, is not shared with Group II or Group III because: (a) Group II is drawn to a method for iontophoretically administering a drug at less than a maximal current density, and not a method for using a device for iontophoretic delivery of a drug at less than a maximal current density, and (b) Group III

is drawn to a sponge of porous structure and not the technical feature of a device for iontophoretic delivery of a drug at less than a maximal current density. Similarly, the special technical feature of Group II, a method for iontophoretically administering a drug at less than a maximal current density is not shared in Group III as Group III is drawn to a sponge of porous structure and not the technical feature of iontophoretic delivery of a drug at less than a maximal current density. Therefore, the respective groups lack the same or corresponding special technical features and do not relate to a single general inventive concept.

4. A telephone call was made to Gary M. Nath on November 17, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention. The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to JOSEPH JOHNNIE whose telephone number is (571) 270-7838. The examiner can normally be reached on Monday-Friday, 7:30am-5pm EST.
